Cartoner for bottle Bosch Cart 5

The CAR-T5 is a reliable, purely mechanically driven cartoning machine for versatile application fields.

The robust execution of the whole system allows production with almost any carton quality.

A variety of infeed systems is available.

Its simple, fast, reproducible size changeover with easy handling and maintenance also make the CAR-T5 impressive.

The cartoner is equipped with both fundamentally robust technology and engineering, renders an excellent efficiency ratio and is thus an investment with a high ROI.

The application area of the CAR-T5 is almost limitless.

The machine is in use worldwide in the pharmaceutical, chemical processing, cosmetics and food industry the same way as for technical products, such as household items or toy and stationery goods.

Output: 120 cartons/min.

Operating Mode:

Intermittent Size Range (A x B x H): min. 20 x 16 (12) x 60 mm max. 95 (105) x 70 (80) x 200 (205) mm.

Power Consumption: 4 kW.

Connection Value: 9,5 kVA.

Compressed Air Requirement: 9,5 m³/h at 6 bar overpressure.
