Product details

Category:	Cartoning Machines/Case packers
Machine:	PAK 300
Machine code:	IT220
Manufacturer:	ROMACO
Year of construction:	2001

Description

INTIMAC S.R.L.

Via XXV Aprile, 8
21054 Fagnano Olona (VA) - Italia
Tel. +39 0331 1693557
email: inti@intisrl.it

Packer Romaco Promatic PAK 300

PAK 300 is designed for packing cartons and/or bundles into RSC cases and features: a high- capacity case magazine fitted with automatic lifting of the case to working height, forced case erection by means of a double arm fitted with suction cups and Venturi vacuum unit, closing of the flaps at the base of the case before the cartons are inserted. The case packer's operating processes and work areas such as stacking from bottom to top, transfer and subsequent insertion of the cartons into the case, are kept separate and permit checking of critical operations, reducing machine down- time to a minimum.

The Romaco Promatic PAK 130 is the ideal solution for serialization and data aggregation.

Highlights:

Reduced downtime, cleaning and maintenance operations

Clear view of product flow, immediate safe access to all functions and operations, high efficiency level

GMP design

Ergonomic design

Machines error diagnosis and troubleshooting functions enhance operation of the machine

Quick and easy changeover

Data:

Mechanical speed: 8

Power consumption, in kW: 4

Air consumption, in NI/min: 250

Weight approx., in kg: 1,800

Length, in mm: 4,350

Depth, in mm: 1,850

Height, in mm: 1,715

Carton size range (mm):

A min. 20, max. 150

B min. 15, max. 85

C min. 60, max. 210

Case size range (mm)

a3 min. 180, max. 500

b3 min. 120, max. 350

c3 min. 120, max. 350
