Product details

Category:	Miscellaneous
Machine:	K300
Machine code:	IT223
Manufacturer:	Kemutec
Year of construction:	2005

Description

Centrifugal sifter Kemutec model K300:

Cantilevered shaft design.

Designed for throughputs of 3 to 5 tons an hour dependent upon the product and sieve screen size.

Mirror polished machines are well suited to high hygiene applications in the pharmaceutical industry.

Benefits

- Clean, simple design
- High efficiency – time saved during inspection, cleaning and maintenance
- No tools required for stripping down and cleaning
- Easy access to oversize end door for opening in seconds
- Easily removable sifter screen for inspection and cleaning
- No leakage or contamination at the oversize end
- 360° in-situ rotation of sifting screen means inspection of the complete screen without removing from the machine.
