Product details

Category:	Sold
Machine:	HRV15 HO
Machine code:	IT180 20-00076
Manufacturer:	Herbst
Year of construction:	2000

Description

Planetary mixer Herbst HRV15 HO

In excellent condition, fully functional.

The agitators run on a circular path and rotate on their own axis to guarantee good mixing results, even at low speeds. This also ensures that mixing is particularly product-friendly. In addition, a wall scraper prevents product adhesion to the tank wall and heat transfer processes can run at an optimum. Planetary mixers are mainly used in the medium to high viscosity range.
