The Comadis CD180 by IMA is an automatic tube filler with dual nozzles with a hot air station with seal jaws and trim station designed for demanding production environments. It features a robust mechanical structure and offers both basic and tailored configurations, including fully automatic tube feeders. The machine is capable of handling up to 180 tubes per minute, with filling volumes ranging from 2 to 250 ml (extendable up to 350 ml on request), Diameter from 10 - 50 mm and tube height 60 - 250 mm. The servo-driven dosing pump allows convenient setup via HMI, providing precise control over stroke, acceleration, and deceleration for each dosing piston. Additionally, the system offers quick interchangeability of closing heads and simplified size part changes without tools, ensuring minimal downtime. Compatible with sustainable plastic materials, it's suitable for various production needs while ensuring consistent quality and efficiency.
