Product details

Category:	Sold
Machine:	MT200
Machine code:	LB381
Manufacturer:	MARCHESINI GROUP
Year of construction:	2005

Description

Automatic rigid tubes filling and closing machine, suitable to count and introduce positively tablets in plastic or metallic rigid tubes, cylindrical-shape.
Final tube closure with pressure cap and discharge of the tubes correctly filled on a bucket conveyor at machine outfeed, with cap facing the operator side;
Extremely compact tube feeding;
Tube transport is carried out through bushes that proceed with synchro-dynamic movements;
The tablet insertion is made with a system that moves them in positive way by means of a pick&place system;
Machine is manufactured in strictly compliance with GMP norms;
Balcony type (cantilever);
Conceived to clearly separate the working area from the area containing mechanical transmissions and electrical equipments;
Made of steel and aluminium with AISI304 stainless steel panels. The machine operating parts are constructed with materials suitable to operate at direct contact with product.
