Product details

Category:	Sold
Machine:	GFK 2500
Machine code:	RS401
Manufacturer:	BOSCH
Year of construction:	2006

Description

INTIMAC S.R.L.

Via XXV Aprile, 8
21054 Fagnano Olona (VA) - Italia
Tel. +39 0331 1693557
email: inti@intisrl.it

Very reliable „working horse type“ production machine
Small footprint and height (integrated hoppers)
Lowest in class powder loss due to slide gate technology
Lowest centrifugal forces and small size station design and therefore highest possible product yield
Flexible dosing alternatives, up to 3 fills/capsule
Integrated ASB function (automatic trouble shooting)
Guarantees maximum productivity
ASB 100% optional (mono-block machine incl. ASB in combination with 100% checkweighing) pellets dosing via powder station, due to slide gate technology
Size parts change and cleaning procedure performed by only one person, due to design of the components
Feedback-loop to compensate weight trends available
Operator-free production possible due to ASB and feedback- loop
Mobile HMI with 21-inch touch screen display with clear presentation of data
Technical specifications
2500 ASB 100%
Output 150 000 capsules/h
Machine cycles 140 cycles/min
Number of capsules/segments 18
Voltage, machine 380– 480 V, 50/60 Hz, 3ph/PE, 3 kW,
special voltages
Connections:
Compressed air supply Ø 13 mm
Vacuum connection Ø 30 mm
Dust collector electrical connection 2 x Ø 70 mm
Vacuum pump electrical connection
Jogging cable connection
Infeeds
Powder infeed – Tri-clamp DN 150, DIN 32676
Pellet/tablet infeed – Tri-clamp DN 100, DIN 32676
Empty capsule infeed – Tri-clamp DN 100, 32676
Formats Capsule format set for all standard capsule sizes, different formats included
