INTIMAC S.R.L.

Via XXV Aprile, 8
21054 Fagnano Olona (VA) - Italia
Tel. +39 0331 1693557
email: inti@intisrl.it

The CM40 is a versatile overwrapping machine that can be supplied with various feeding systems. The machine has proven itself at hundreds of satisfied customers worldwide. The products can be wrapped either as single packs or in bundles with heat-sealable materials from reel of coated polypropylene, cellophane, PVC and others.

Designed around three concepts: versatility, ergonomics and maximum efficiency in a small footprint; because of its flexibility and easy operation, the CM40 is one of the best known overwrapping machines in the packaging industry.

The film feeding by means of positive grippers allows the use of difficult and thin films and by stopping the film over the product guarantees an unsurpassed aesthetic quality of the overwrap.
