Product details

Category:	Capsule Filling Machines/Capsule Polishing Machines
Machine:	PLANETA
Machine code:	LB512
Manufacturer:	MG2
Year of construction:	2001

Description

The capsule filling and closing machine MG2 PLANETA is equipped as follows:

1. capsule filling and closing machine

Serial number 4601 Year of construction 2001

1500 kg

V400 HZ 50

KW12,2

Hourly output: Production speed of the machine 120.000 capsules/hour

Processable capsule formats: 00,0,0L,1,1L,2,3,4,5, SUPRO A, SUPRO B, SUPRO C, SUPRO D, SUPRO E, DBA, DBA

Installable dosing units: Powder, pellets and tablets

2. micro-tablet dosing unit with aspiration

Weight approx. 250 kg

Capacity of the product hopper: approx. 5 litres

If only one dosing unit is to be installed, a blind cover is missing.

Two MG2 tables for the dosing units are missing

3. weight control system

Static standard fine scale Sartorius

Compressed air 6 bar

4. suction air/vacuum unit

5. standard suction blower

Connection line 1.5 hp

Negative pressure: Flow rate per connection: 45 dm³/sec

Negative pressure: 140 mbar

6. standard vacuum pump

Flow rate: 40 m³/h

Vacuum value 60kPA
