### Product details

<b>Category:</b>	Sold
<b>Machine:</b>	Inova SV 122
<b>Machine code:</b>	21C17
<b>Manufacturer:</b>	Inova
<b>Year of construction:</b>	2005

### Description

---

This semi-automatic system is currently equipped with the BD-Hypak SCF system and parts in sizes 0.5 ml, 1 ml - 5 ml for nested syringes.

Two syringes are filled during each filling cycle and the filled syringes are closed with rubber stoppers. The machine is offered complete with variable control rotary valve pumps and operates with two filling stations.

It is designed to operate at variable speed and has a maximum capacity of 4,500 syringes per hour.
