

## Water Treatment/Distillation Units/Reverse Osmosis/Pure Steam Generators Ponzini FD 12

### Images

### Product details

<b>Category:</b>	Water Treatment/Distillation Units/Reverse Osmosis/Pure Steam Generators
<b>Machine:</b>	FD 12
<b>Machine code:</b>	22F102
<b>Manufacturer:</b>	Ponzini
<b>Year of construction:</b>	1987

**INTIMAC S.R.L.**

## Description

---

Ponzini thermocompression distillation plant for distilled water production  
Model BD/pr-E.V. (AT-AV)  
Hourly capacity 330 litres  
Serial number 2754

Current three-phase 380 volts 50 Hz  
Current single-phase 24 volts 50 Hz  
Electrical power 59 Kw  
Steam compressor type SCL-710  
Distilled water recycling pump type Prolac S18 MB 1.1 CIE

Energy consumption during steady running to produce distilled water a:

with electric heating 25/30C. 85/90C.

auxiliary heating 2 KWH 20 KWH  
motive power 4.5 KWH 4.5 KWH

with steam heating

auxiliary heating 4 KWH 34 KWH  
motive power 4.5 KWH 4.5KWH

consumption for system preheating and steam compressor with system  
electric power consumption 20 KWH steam heating 34 KGH
