

Autoclaves/Sterilizing Ovens/Freeze Dryers FEDEGARI FOB3

Images

Product details

Category:	Autoclaves/Sterilizing Ovens/Freeze Dryers
Machine:	FOB3
Machine code:	22MF182
Manufacturer:	FEDEGARI
Year of construction:	2011

Description

INTIMAC S.R.L.

Via XXV Aprile, 8
21054 Fagnano Olona (VA) - Italia
Tel. +39 0331 1693557
email: inti@intisrl.it

The FOB benchtop autoclave series is suitable for many applications, making it a perfect choice to meet the needs of a modern laboratory, thanks to the combination of technology and construction know-how, and can be used in very different environments:

- Public and private microbiological laboratories.
- Universities and colleges.
- Research institutes, biotech and life science laboratories.
- Diagnostic laboratories.
- Veterinary and environmental laboratories.
- Laboratories for stress tests on materials.
- Quality laboratories in pharmaceutical, food, cosmetics companies etc.

The FOB is suitable for handling different types of cargo, including laboratory waste with a pathogenic risk, as well as porous solids, bagged instruments and liquids/contrast media in open or hermetically sealed containers.

The bench-top autoclaves of the FOB series are used in very specialised fields requiring validated and reproducible processes, but remain very flexible due to the great variety of options provided by the modularity of our autoclaves.

FOB3-TS: 90 litre, single folding door;

The door opening and closing system is unique due to the patented hermetic closure system with pneumatic gasket, which guarantees perfect watertightness, maximum reliability and safety for the user. In addition, the autoclaves in this series are equipped with a safety system, which prevents the doors from opening and provides increased safety for the user.

The chambers, pneumatic valves and hydraulic components are made of 316L stainless steel with an electropolished finish. The FOB autoclave series has been developed to provide ample and convenient access to the technical area for routine and extraordinary maintenance.
