quality control Faster S.r.l. LS-90

Images

Product details

Category:	quality control
Machine:	LS-90
Machine code:	22F277
Manufacturer:	Faster S.r.l.
Year of construction:	2008

Description

The LS-90 compact vertical laminar airflow chamber (2 pieces) from Faster is compact but fulfils all the necessary requirements of a laboratory in which it is necessary to manipulate cell cultures, non-hazardous biological agents or whenever product protection is mandatory.

The LS-90 is suitable for a wide range of applications: microbiology, sterility tests, cell cultures, sterile manipulation, DNA manipulation and PCR preparations.

The work surface is made of AISI 304L stainless steel and the chamber is equipped with a special closing panel (at the top) that allows changing the working pressure from positive to negative. It also has a HEPA H14 filter and a G3 pre-filter. The LS-90 is an ISO 3 Class laminar airflow chamber (according to ISO 14644-1) with regard to air quality.

External dimensions: 830x925x652 mm (LxHxD)

Useful dimensions: 732x580x380 mm (LxHxD)
