Product details

Category:	quality control
Machine:	BACT/ALERT® 3D
Machine code:	22F291
Manufacturer:	LAB EQUIPMENT bioMérieux
Year of construction:	n/a

Description

INTIMAC S.R.L.

Via XXV Aprile, 8
21054 Fagnano Olona (VA) - Italia
Tel. +39 0331 1693557
email: inti@intisrl.it

Automatic BACT/ALERT® 3D microbial detection systems: an innovation in septicaemia diagnosis for every type of laboratory. They offer an optimal environment for the recovery of a wide range of microorganisms, including bacteria, fungi and mycobacteria.

Combines control and incubation modules in one instrument

Capacity of 60 cells in two drawers

Possibility to connect up to 3 incubation modules to one Combo instrument

Sample loading flexibility with left or right loading cassettes

Drawers are configured for blood cultures or mycobacterial cultures
