

refrigerator/freezer Binder KB 115

Images

Product details

Category:	refrigerator/freezer
Machine:	KB 115
Machine code:	22F228
Manufacturer:	Binder
Year of construction:	n/a

Description

INTIMAC S.R.L.

Via XXV Aprile, 8
21054 Fagnano Olona (VA) - Italia
Tel. +39 0331 1693557
email: inti@intisrl.it

Refrigerated incubator

Advantages

- Safe and reproducible incubation even at high ambient temperatures
- Disinfection routines at 100 °C
- Up to 30 % lower energy consumption than the previous model

Important features

- Temperature range: -10 °C to 100 °C
- APT.line™ preheating chamber technology
- Up to 30 % lower energy consumption compared to previous model
- Cooling by compression cooling machine
- Adjustable fan speed
- Controller with real time and time slot programming
- Safety glass inner door (ESG)
- 2 insertable stainless steel grids
- Stackable
- Temperature safety device class 3.1 (DIN 12880), with acoustic and optical alarm
- Computer interface: Ethernet

Container dimensions without attached parts and fittings

Height x W x D (mm) 1025 x 835 x 650

Internal dimensions

Height x W x D (mm) 480 x 600 x 400

Device net weight (empty) [kg] 105
