Category:	Sold
Machine:	CP18
Machine code:	23-804
Manufacturer:	IMA
Year of construction:	2009

Description

Extremely compact case packer with palletizing option CP18 from 2009

Ideal for packaging products such as pharmaceutical items, the machine is suitable for different production needs. Equipped with a horizontal case magazine for easy loading, the machine keeps the case erect during product insertion with the aid of suction cups fitted to the pick-up and forced opening arms. All the parts of the machine can be reached from the operator's side without having to walk to the opposite side to reach the carton stacking unit.

The machine can be fitted with the following optional groups and features: case overturning, product tracking and camera detection devices, integrated labellers and markers, and can also be fully servo-driven.

CP18
