---

Automatic case packer IMA BFB Mod. 3728 BA of 1998 built to guarantee maximum reliability, great versatility, minimum overall dimensions, with very small dimensions and high production characteristics. This newly designed machine is particularly suitable for inserting single shrink-wrapped cartons or pre-glued trays of standardised dimensions.

**FIELD OF APPLICATION**

Pharmaceutical, chemical, cosmetic, food, dietetic, medical devices.

**PECULIARITY:**

Electrical system, noise level and safety guards, to European standards. Carton closure with adhesive tape and/or application of hot melt or vinyl glue.

Picking arms and forced opening suction cups ensure the perfect squaring of the carton during the filling phase. The product is stacked and fed into the open carton.

The machine proceeds to close the flaps of the carton and depending on the configuration to close the carton.

**TECHNICAL SPECIFICATIONS**

Electrical frequency Hz 50

Operating voltage Volt 380

Air pressure bar 6

Length approx. mm 6400

Width approx. mm 1735

Height approx. mm 1800

Net weight Kg 1500
