## Product details

<b>Category:</b>	High Shear Mixers/Powder Mixers/Mills/Granulators/Roller Compactors
<b>Machine:</b>	VACUMIX VHMS 1250
<b>Machine code:</b>	23-1071

**Manufacturer:** Seefried**Year of construction:** n/a

## Description

Seefried VACUMIX VHMS 1250 ointment processing plant  
2 mixers 1250 litres net capacity, with agitators  
1 preparation tank with 225 litres net capacity, with propeller agitator at the bottom  
1 water tank 225 litres net capacity, without agitator  
1 stainless steel working platform, approx. 10 m<sup>2</sup>  
1 IPC control system with two operating panels, recipe mode, documentation.

The plant was used to produce gels for the manufacture of dialysis filter membranes. The plant was only in operation for about 12 months, after which production was stopped.

The plant is still set up as shown in a heated building and is in good condition, mechanically almost new. Container 1 was used for the production of gel capsules. Equipment: with homogeniser and additional equipment.

Container 2 was used for melting masses for suppositories.
