Product details

Category:	Vessels/Tanks
Machine:	PRAMINOX preparation vessel with magnetic stirrer .
Machine code:	22-760
Manufacturer:	Praminox
Year of construction:	1985

Description

stainless steel dissolving tank for storing and transferring liquids (approx. 550 litres).

SECTOR OF USE:

Pharmaceutical, chemical, cosmetic, food, dietary, medical devices.

PECULIARITY:

The equipment is designed to high and proven engineering standards, the machine provides the user with a high degree of quality and reliability designed to achieve the best possible results in terms of product purity. The tank by its natural propensity lends itself to pharmaceutical and chemical processes. The dissolver is a dynamic tank for dissolving powdered products in a liquid solution. It is constructed in a cylindrical shape and made of stainless steel, with a sloping bottom.
