Product details

Category:	Labelling Machines
Machine:	M200 - 9101
Machine code:	22-482
Manufacturer:	Mar.Co
Year of construction:	n/a

Description

The M200 - 9101 system is designed and manufactured to apply self-adhesive labels in roll form to products of various geometries.

- applicatioThe M200 - 9101 system is designed and manufactured to apply self-adhesive labels in roll form to products of various geometries.

- application of a semi-wrap label to a cylindrical bottle.

- application of a wrap-around label to a cylindrical bottle.

The special modular design of the M200 9101 system enables the machine to be quickly adapted to the product, saving considerable time during set-up and installation.

and installation.

The M200 9101 system's integral safety hood (in compliance with current regulations) guarantees operator safety.
