Product details

Category:	Coating Equipment
Machine:	LDCS-5
Machine code:	23-972
Manufacturer:	FREUND VECTOR
Year of construction:	2002

Description

Coater Vector HI-Coater Model MOCS-5 date 2002
For Developmental Pan Coating Processes

- Fully Perforated Interchangeable Pans

Flexible Processing Capabilities

- Film, Sugar and Solvent Coating Available
- Portable, Self-Contained Tabletop System
- Quick-Change Mounting System
- Integral Drain for Rapid Cleaning

Anti-Marking Coating Pans

- Abrasion Resistant Perforations
- Anti-Slide Baffles Formed into Pan
- Sanitary Mirror-Smooth Finish Pan Interior
- Removable Precision Mixing Baffles

Anti-Bearding Spray Gun

- Atomization & Spray Pattern Control for Consistent Coating Processes
- Easily Removable Spray Bar

Integrated Peristaltic Solution Pump

- Positioned on Front Cover for Quick Process Changeover

Color Touchscreen Control System

- Automatic (Recipe-Driven) and Manual Modes
- COMPU™ Control System (Optional)
 - o 21 CFR Part 11 Data Recipe Handling System
- Validatable Process Control
 - o Inlet Airflow and Pan Pressure
 - o Exhaust or Inlet Temperature
 - o Spray Rate and Delivery Amount
