Product details

Category:	Labelling Machines
Machine:	ESA1025
Machine code:	24-1269
Manufacturer:	BAUSCH+STRÖBEL
Year of construction:	2009

Description

INTIMAC S.R.L.

Via XXV Aprile, 8
21054 Fagnano Olona (VA) - Italia
Tel. +39 0331 1693557
email: inti@intisrl.it

The labeling machine ESA1025 apply self-adhesive labels off the roll to small bottles and vials as well as ampoules, cartridges and other non-stable containers. These continuous-motion labelling machine has a highly compact design. All electrical, electronic and PLC components are integrated in the machine to save space.

- New modular label dispenser system
- Precise and gentle container labeling
- Rapid convertibility to various container and label sizes without tools
- Choice of various label printing systems (intermittent/continuous)
- Higher print quality through the use of cutting-edge servo drive technology
- Label printing modules and vision systems combining flexibility, safety and quality
- Labeling process based on the Zero Reject Principle (faulty labels are removed)

Output up to 48,000 items/h

Processing range Container diameter: 7.5 - 42.5 mm

Container height: 20 - 140 mm
