## Product details

<b>Category:</b>	Cartoning Machines/Case packers
<b>Machine:</b>	IMA 255
<b>Machine code:</b>	24-1292

**Manufacturer:** MARCHESINI GROUP

**Year of construction:** 2001

## Description

Continuous motion horizontal cartoner Marchesini MA255

year of manufacture : 2001

with feeder for bottles , entirely made with balcony construction, designed around three basic concepts: versatility, ergonomics and maximum efficiency in a small footprint.

Because of its characteristics it is the ideal solution for packaging cosmetic and pharmaceutical products.

Product insertion on MA 255

The product is inserted into cartons continuously, by means of 2 pushers placed opposite the operator side, performing 2 insertions at the same time.

The 2 pushers are activated independently, making possible the action even of a single one, when necessary.

mechanical output: up to 240 pcs/min Carton magazine

The motorized carton magazine is located at a lower level compared to the product transport.

The main advantages are:

Ergonomics: very easy carton loading

Cleanliness: no carton dust over the product and on the mechanical parts

Constant feeding Optimal pick-up and opening Size changeover To obtain an easy and fast changeover, the machine has been designed to make regulations instead of parts replacement.

The use of indicators make the change-over easier and faster. •

24V DC control voltage.

Format range A) 25-100 mm B) 15-85 mm H) 65 – 150
