Product details

Category:	High Shear Mixers/Powder Mixers/Mills/Granulators/Roller Compactors
Machine:	MIX 50
Machine code:	24-1276
Manufacturer:	Axomatic
Year of construction:	2011

Description

Axomatic MIX 50 turbo emulsifier from 2011

- Slow counter-rotating cosial mixing with Teflon scrapers
- Homogenising turbine (speed up to 3,000 rpm).
- Colour touch screen control panel to display all main machine functions.
- Mechanical lid lift.
- Mechanical container tipping to facilitate unloading the finished product.
- Hopper for loading essences.
- Central valves at the bottom of the machine for vacuum incorporation of raw materials and/or unloading of finished product.
- Mirror and lamp for inspection during mixing phase

Vessel technical data

Max. water pressure 2 bar

Water consumption 5 litres/minute

Max. capacity 67 litres

Minimum workable 30% of vessel capacity

Mixing speed 35 / 70 rpm

Turbine speed Up to 3000 rpm

Lifting and tilting Hydraulic Max. temperature 90 C° Vacuum - 0.7 bar
